

HOLIDAY HOMEWORK, 2025-26

SCIENCE CLASS - 6

SUMMER SOCIAL SERVICE CHALLENGE

Dear Students,

Summer break is here! It's the perfect time to do something good for others and learn new things outside the classroom. Helping people and nature makes the world better — and it makes you feel happy and proud too!

Why Should You Join?

- Learn New Skills: You can become better at talking to others, working in a team, and solving problems.
- Feel Good Inside: Helping someone else makes you feel happy and peaceful.
- Make the World Nicer: Your small actions can make your community cleaner, kinder, and happier!

What Can You Do?

Here are some simple ideas to help out:

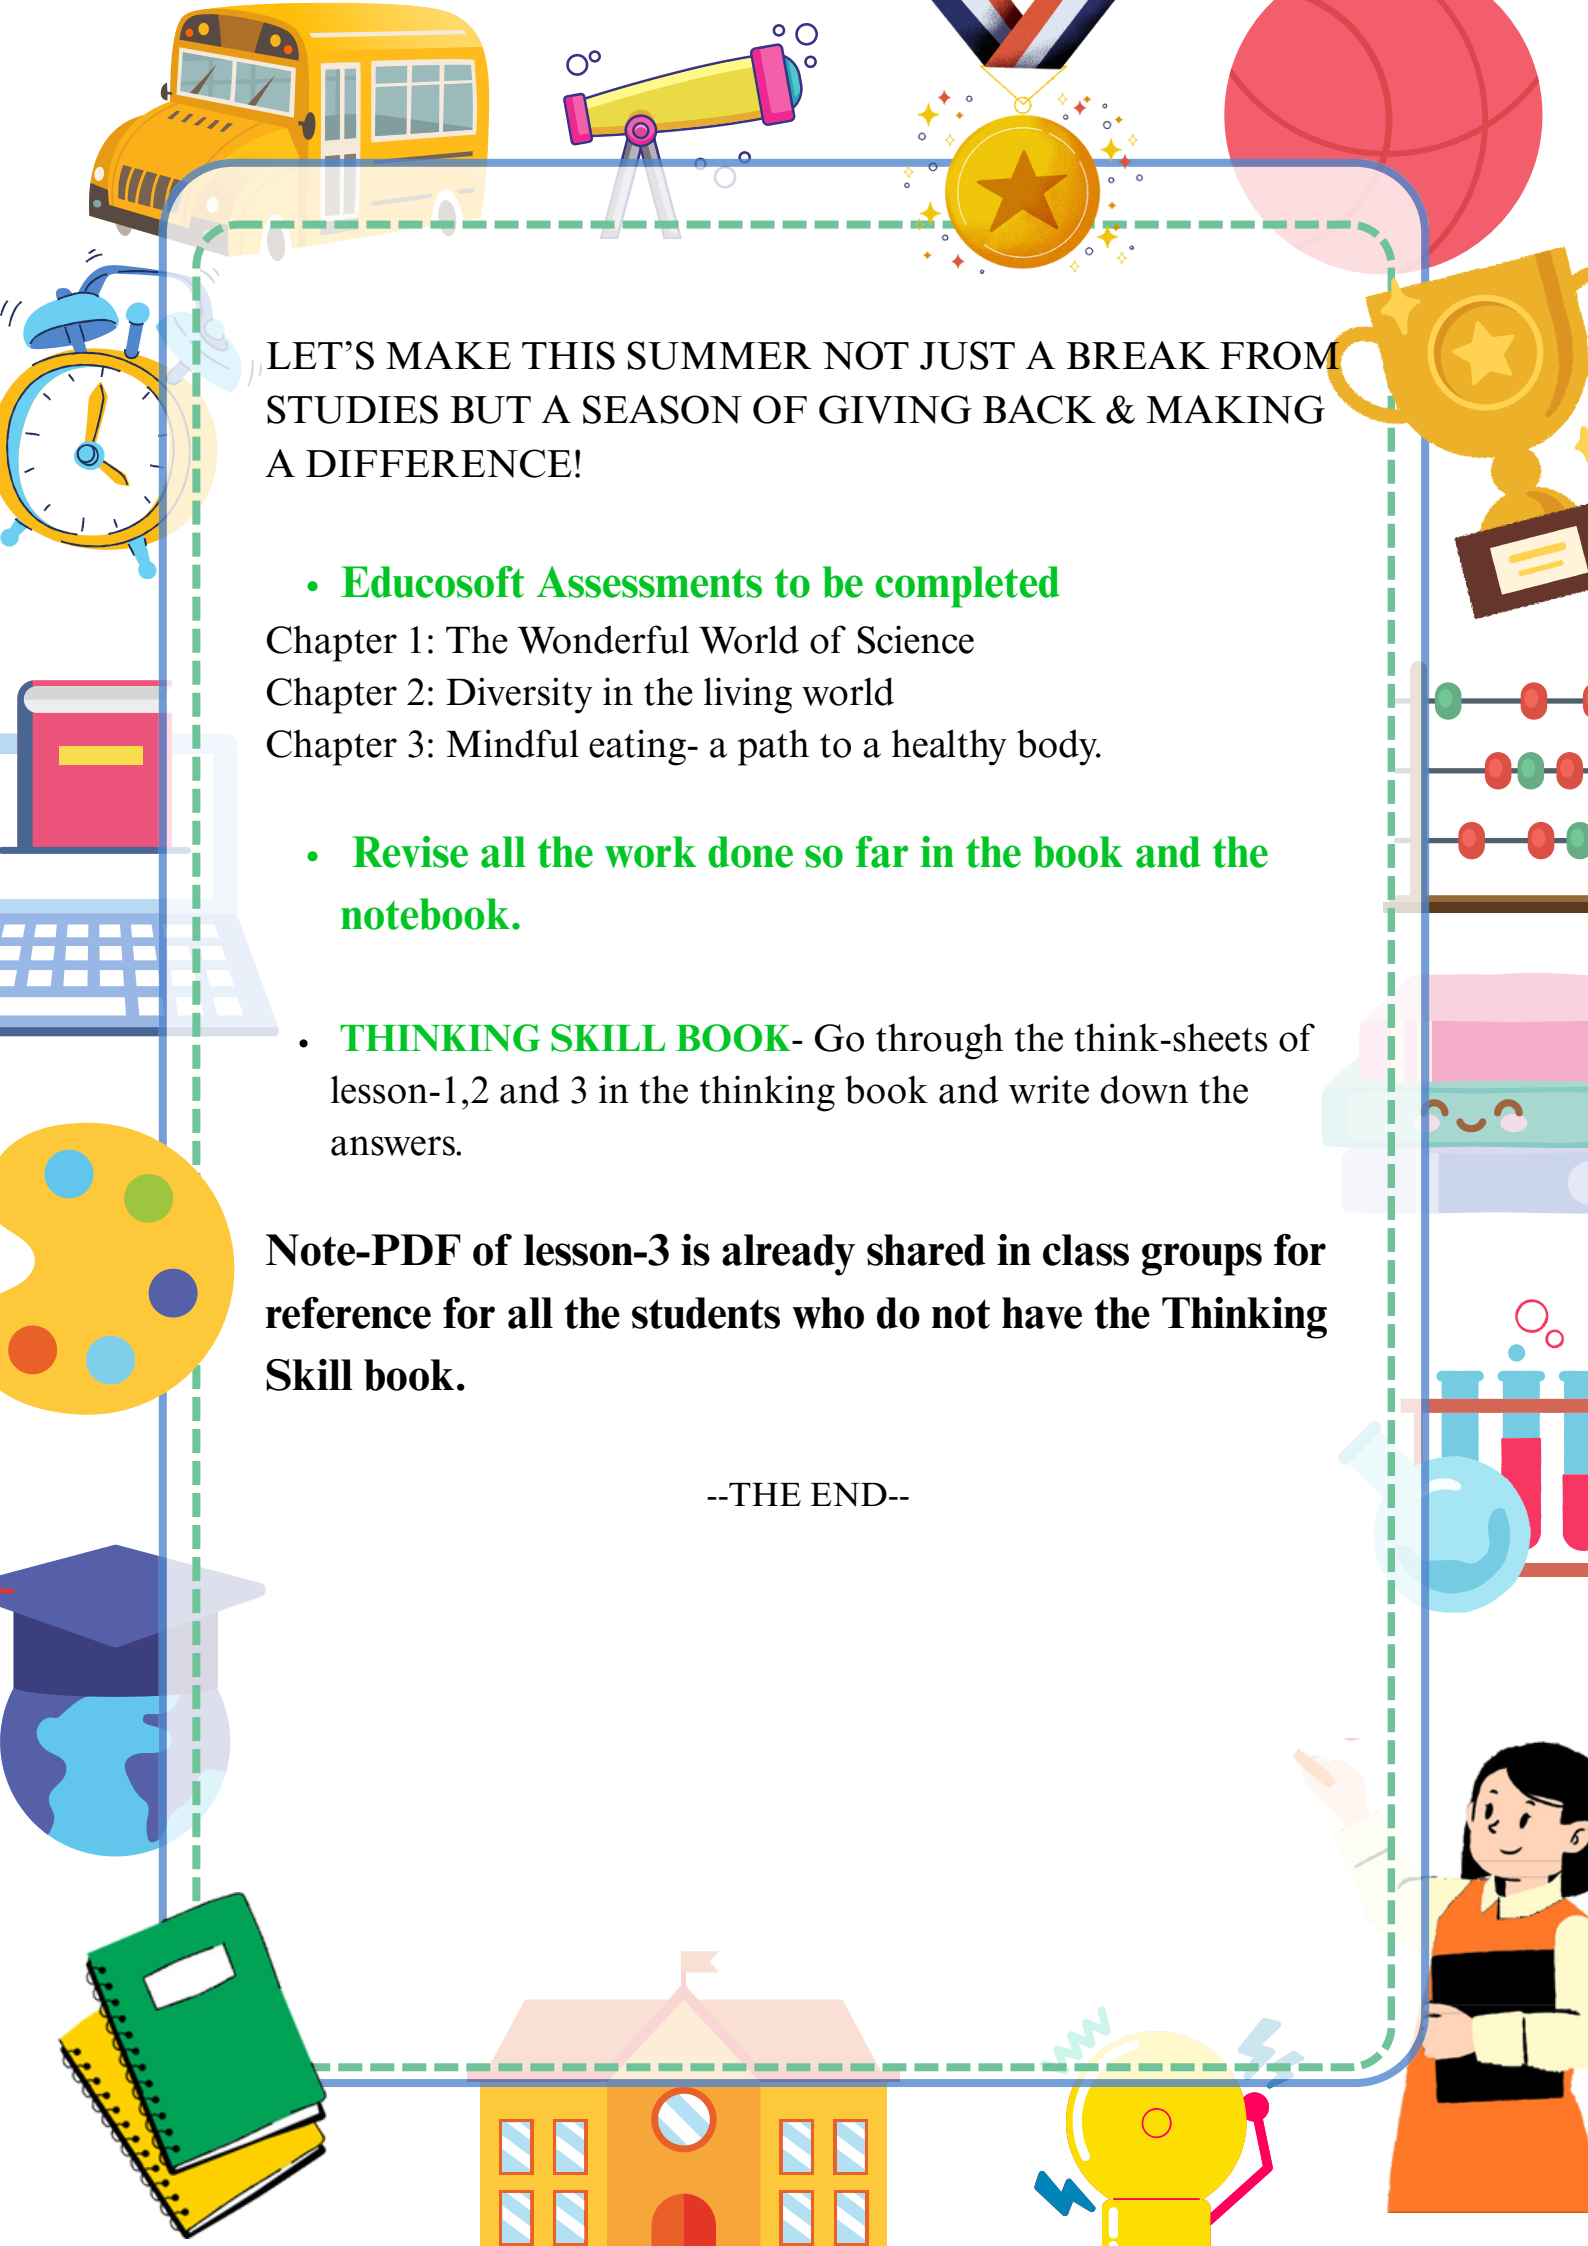

- Clean Your Area: Help clean your park or street with friends or family.
- Help at an NGO: Spend time with groups that help poor people, animals, or the environment.
- Be a Study Buddy: Help younger kids learn or play kindly.
- Spread Kind Messages: Make posters or tell others about saving water, helping animals, or keeping nature safe.
- Other Ideas: Plant trees, feed birds or animals, recycle waste, or talk to people about saving the planet!

Share Your Story:

You can take photos or write about what you did. Share it on your school website or social media (with the help of your parents or teachers). You might inspire someone else to help, too!

Remember:

Even a small good deed can make a big difference. This summer, let's be kind, helpful, and caring. Let's make it a season of giving and growing!

A decorative border surrounds the central text area, featuring various educational and scientific icons. At the top left is a yellow school bus. Next to it is a yellow telescope on a tripod. To the right is a gold medal with a star on a ribbon. Further right is a red basketball. On the left side, there is a blue alarm clock, a pink book, and a laptop. On the right side, there is a gold trophy, an abacus, a stack of books, and test tubes. At the bottom left is a blue graduation cap and a stack of books. At the bottom center is a yellow school building. At the bottom right is a yellow robot and a girl in an orange dress holding a book.

LET'S MAKE THIS SUMMER NOT JUST A BREAK FROM STUDIES BUT A SEASON OF GIVING BACK & MAKING A DIFFERENCE!

- **Educsoft Assessments to be completed**

Chapter 1: The Wonderful World of Science

Chapter 2: Diversity in the living world

Chapter 3: Mindful eating- a path to a healthy body.

- **Revise all the work done so far in the book and the notebook.**
- **THINKING SKILL BOOK-** Go through the think-sheets of lesson-1,2 and 3 in the thinking book and write down the answers.

Note-PDF of lesson-3 is already shared in class groups for reference for all the students who do not have the Thinking Skill book.

--THE END--
