*The Project-Portfolio/Project Report is a compilation of the work that the students produce during the process of working on their ALS Project.*

*The Project-Portfolio may include the following (sequence):*

- 1. Cover, with the title of the project, school details/details of students.*
- 2. Statement of purpose/ objectives/ goals*
- 3. Certificate of completion under the guidance of the teacher.*
- 4. Action plan for the completion of assigned tasks*
- 5. Materials such as scripts for the theatre/role play, questionnaires for interviews, written assignments, essays, survey reports, and other material evidence of learning progress and academic accomplishment.*
- 6. The 800-1000 words essay /Script /Report.*
- 7. List of resources/bibliography.*

### ***B. Write Articles on the given topics in English Register(120-150words)***

- Environmental Hazards*
- Breaking Barriers: Women in Workforce*
- Importance of Yoga and meditation*
- Digital Wellbeing-need of the hour*
- Human Beings versus AI*
- Importance of Mental Health*
- Real vs Reel(Impact of Social Media)*

***C. Read any book of your choice and make a pictorial presentation of its story, characters, setting on A3 sheet .***

**OR**

*Make a video/ppt on its summary &review*

***Suggested Books to Read:***

Wonderland of Words by Shashi Tharoor  
Believe in yourself-Dr Joseph Murphy  
Ikigai-Hector Garcia &Francesc Miralles  
The Girl who Drank the Moon -Kelly Barnhill

**D. Read the passage given below**

**Subjects Integrated:** Mathematics, Economics, Psychology, Biology(Healthcare)

1.Chat GPT has been gaining attention for how closely it mimics human-like responses. Created by Open AI in 2022, it is a chat bot that has been trained to have knowledge of worldly events and phenomena up till September 2021 and to interpret the context of texts to produce meaningful responses. The tool can provide answers on many topics, and often states disclaimers if it cannot answer a prompt accurately. Unlike a search engine, it cannot browse the internet for information. It also does not collect any personal information of users .A survey was administered to understand the uses of Chat GPT in the fields of education ,healthcare and research. There were 420 participants in the study of which 59 respondents were from the medical field, 118 respondents were students and faculty from the research field.

2.Seventy respondents identified as administrative staff and 173 people marked 'other' as their occupation. Of the 420respondents, only 40% had used Chat GPT before. More medical trainees and students as well as research students had used Chat GPT as compared to medical staff and research faculty.

The survey asked about the viability of Chat GPT for its use within the fields of education, research, and healthcare. The following table summarizes the responses.

Question	Statement	Number of Respondents
Should Chat GPT be used in education?	No, it should be banned	11
	I don't know. Its too early to make a statement	226
	Yes it should be actively incorporated	183
Should Chat GPT be used in Research?	No it should not be used at all	6
	I don't know .it is too early to make a statement	75

	Yes but it should only be used to brainstorm	68
	Yes as long as its use is transparently disclosed.	259
	Yes disclosure is not needed	10
Should Chat GPT be used in Healthcare?	No, it should not be used at all.	15
	I don't know; it is too early to make a statement	177
Should Chat GPT be used in Healthcare	Yes, it can be used for administrative purposes.	176

3. Based on the responses, there was a greater uncertainty around its use in healthcare and education compared to using it in research. Regarding the use of Chat GPT in healthcare, significant portion of respondents (42%) approved of using it for administrative purposes (for example preparing patient profiles or reports) and a smaller population of respondents (12.2%) felt it could be used for any purpose. 4. The current application of Chat GPT and its future potential needs to be examined. It can help students understand texts and write more effectively, simply medical information for patients and automate administrative tasks and prepare a summary of information which otherwise would require hours of reading through various sources. However, its negative impact must be considered before institutions approve its use.

Answer the following questions, based on the

passage above. Complete the given sentence in one

word:

i- Based on the summary table, the \_\_\_\_ number of respondents think that Chat GPT should not be used.

ii- The following was a prompt posted by a user in Chat GPT as their first question 'What's my name?'

Based on information from the passage, which of these is most likely to be Chat GPT's response?

a- 'Error 404: page not found.'

b- 'Your name is user 1000004.'

c- 'Sorry, can you repeat the question?'

d- 'Sorry, I don't have access to your data.'

iii- Imagine that you have to write a news report on a major landslide that occurred in Manipur on 30 June, 2022. Would using only Chat GPT be useful for your project? State Yes/No

iv- The following are the profiles of some respondents from the survey. Based on the passage, which of these profiles is MOST LIKELY to be a part of the 40% who have used Chat GPT before?

a- a manager in a hospital who has done 5 years of administrative work

b- a professor of Psychology who has 30 years of teaching experience

c- a college graduate who is studying in a 2-year Master's course

d- a 25-year-old teacher who is working in a public school

v- Which of these is true about the respondents of the survey?

a- It had 118 respondents who were employed in the field of education

b- It had 70 respondents who had administrative roles in educational institutions

c- It had 173 respondents who were working in the field of research including students.

d- It had 59 respondents who were from the medical field including those who study medicine

vi-Why do you think some respondents feel that ChatGPT should be banned in education?

State a reason.

vii-Locate a detail from the passage that shows that we still do not know enough about ChatGPT. Answer in one sentence.

viii-State TRUE or FALSE

a-More than half of the respondents think it is ok to use ChatGPT in research if one clearly states its contribution.

*b- In research ,68 respondents want it to be only used for brainstorm*

*c-In research sector 10 respondents require disclosure while using Chat GPT.*

*ix-How many respondents don't want to use Chat GPT at all in Healthcare?*

*x-Find word for imitate in para 1.*
